CTFA, Dr. Stewart --

-- would like to clear its conscience, as well as its books,
by paying the Medical College a long-standing balance due
for research services performed.

However, contractual agreements have not been fulfilled and
a final remittance will not be made until CTFA receives your
final report on the hydrocarbon study.

I'm sure you realize the urgent need of industry to have the
results of the isobutane and propane studies without further
delay.

Cordially,

James H. Merritt
President
