"Experimental Studies of Asbestosis"

Van Brown has the study that Sarnas has prepared for publication and is to pass it on to you.

It is our only copy here and Sarnas has said it would be too big a job to duplicate it for us, suggesting that we wait for the publication of the article in the Archives of Industrial Hygiene and Occupational Medicine.

The article as prepared for publication is very similar to the previous report we had except that the previous report doesn't have all the photographs. I believe Dr. Ken Smith and Dr. Cartier both have copies of the previous report.

J. P. Woodard
