Mr. W. P. Westlake
General Manager
Westinghouse Electric Corporation
Box 341
Bloomington, Indiana 47402

Dear Mr. Westlake:

I have reviewed the PCB study reported by Dr. Blair Smith of the National Institute for Occupational Safety and Health. Also, I spent one day going over the report in great detail with Dr. Smith. Dr. Smith and I both agree that the study does not identify any specific diseases associated with exposure to PCB.

In reviewing the literature I have been unable to find any report statistically associating specific diseases with PCB exposure.

If you have further questions, please contact me.

Sincerely,

Morris L.V. French, Ph.D.
Professor of Pathology
Director, Virology-Serology
