SUBJ: NALKYLENE ALKYLATE

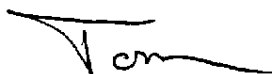

VISTA

The text below should be used on the NALKYLENE labels being requested to assist in product identification. Although the NALKYLENES are not considered OSHA hazardous materials, it is appropriate to place general warning statements on the labels to be used.

Prolonged or repeated contact with this product may result in skin or eye irritation. Normal care in handling and good personal hygiene should be practiced to avoid bodily contact.

Fire hazard is minimal but product should be kept away from open flames.

Please let me know if you have questions on the above.
