ANSWERING
LETTER OF
SUBJECT LEAD-FREE SELF-PRIMING MASTIC (Y-5256)
3172A

RE: Telephone call from Mr. Wes Page.

Mr. Page asked me about the progress of our testing of our lead-free version of Y-5256, Glid-Guard Epoxy Self-Priming Mastic. I told him that so far in our testing that the lead-free version is at least the equal of the present Y-5256. He wants the formula of the lead-free Y-5256 issued together with the new amine adduct version of Y-5257, Glid-Guard Epoxy Self-Priming Mastic Converter. He requested copies of these formulas be sent to Mr. W. H. Phillips (UCB) for costing.
