

HILLSBORO A/C PIPE PLANT
1981-1984 ASBESTOS MONITORING SAMPLE RESULTS

PLAINTIFF'S EXHIBIT

CT-1314

The samples are listed by:

1. Department
2. Personal/Area/Engineering Sample
3. Job Title/Area
4. Test Date

An explanation of the computer run follows:

Department (DEPT)

Blank - Employee works throughout the plant.	EPX - Epoxy
AFN - 'A' Plant Finishing/Fittings	MAI - Maintenance
AMF - 'A' Plant Manufacturing	QC - Quality Control
BFN - 'B' Plant Finishing	SHP - Shipping
BMF - 'B' Plant Manufacturing	

Personal/Area (PER/AREA)

A - Area samples - samples taken in general areas of the plant where people work.

E - Engineering samples - samples taken in specific areas of the plant near machinery to determine if engineering controls are effective or required.

P - Personal samples - samples taken on employees at specific work stations.

Test Date

Date sample was performed.

Job Title/Area

Job position or area where sample was performed.

Samples

Each individual sample is listed by its number (either plant or Corporate number) with start and stop times, total sample minutes and results (f/cc).

Time-Weighted Average (TWA)

No TWAs are provided for area samples. All personal samples have been listed. Where serial samples with totals exceeding 240 minutes were taken, the TWA is provided for the combined samples.

300?

Respirator (RESP)

N - A respirator was not worn by the employee sampled.

S - A respirator was worn at some period during the sampling.

Y - A respirator was worn during the majority of the sampling time.
