Woodbridge, VA 22191

Dear Mrs. Tompkins:

This will acknowledge your letter of April 29 forwarded from our manufacturing plant to this general office address for follow-up and attention.

We can appreciate your concern, however, wish to advise you that we have for several years included warning information on the packages of any of our products containing asbestos and as a matter of fact, all of our patching materials are now being produced with an asbestos free formulation.

In any case as regards Patching Plaster, please be assured that we have never formulated that product with asbestos and it is composed of moulding plaster a type of clay and limestone.

We trust this will provide you with the information you desire.

Sincerely yours,

BONDEX INTERNATIONAL, INC.

Bondex International Inc.,

I have a 40 oz box of your "Bondex Patching Plaster" (now sealed in a plastic bag) with no ingredients listed on it. I'd like to know what those ingredients are for the safeguarding of my family's health. If there is/are cancer causing substances such as asbestos, I would like to be refunded the purchase price of 75 cents. All ingredients should be listed no matter what the product is. We have the right to choose according to what is safe for us. Your honesty and consideration will be much appreciated.

Thank you,
Mrs. Jeanette Tompkins
