Dr. Robert A. Kehoe  
University of Cincinnati  
College of Medicine  
Cincinnati, Ohio

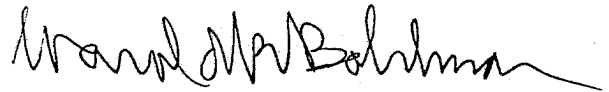

Dear Doctor Kehoe:

Many thanks for your kind favor of  
February 28, regarding exhaust gas of tetra-ethyl lead.

I am greatly interested in your experimental work with the group of men at Wright Field with leaded fuel, especially greater concentration in the gasoline. If you can find the opportunity, and care to do so, I would be greatly pleased to have an estimate of results, or your work to date, in this line - especially the hours flown per pilot, frequency, type of type, the type of exhaust pipe, et cetera.

With many thanks and kindest personal  
regards, I am

Very sincerely yours,

HRB:P
