Re: Notice of Noncompliance

Disinfectants and Disinfection Byproducts Rule (D/DBPR)
Failure to Monitor Chlorine Residual
PWS ID# WY5601735 NTNC

Dear Emily Hanner:

The purpose of this letter is to inform you that the Jackson Hole Classical Academy has failed to complete the required monitoring for distribution system chlorine residual(s). This system is required by the National Primary Drinking Water Regulations (NPDWR) to monitor for chlorine residual in the distribution system at the same time and same location as the total coliform sampling, and to submit the monitoring results to the U.S. Environmental Protection Agency (EPA) within 10 days following the end of each month.

Our office has not received any or all of your system's distribution system chlorine residual results for **June 2024** as required by 40 C.F.R. §141.132(c)(1) of the National Primary Drinking Water Regulations (NPDWR). The following sample result(s) did not report any chlorine residuals:

PWS No.	PWS Name	Collection Date	Sample ID	Lab Name
WY5601735	Jackson Hole Classical Academy	6/10/2024	1046-24	Teton County Co-op Laboratory

If not already done, please take the following actions:

1. Notify your customers of this violation within one year after you learn of the violation. The public notice (PN) must be delivered through either posting in conspicuous locations for at

least 10 days, by hand delivery, or by mail. Enclosed is a copy of the Tier 3 PN form that contains the mandatory language you are required to use. Enclosed is a copy of the Tier 3 PN form that contains the mandatory language you are required to use. You may use the EPA Microsoft Word templates available at <https://www.epa.gov/region8-waterops/reporting-forms-drinking-water-systems-wyoming-and-tribal-lands-epa-region-8#pn>.

2. Provide our office with a copy of your public notice and certification within 10 days of completion.
3. Collect all required chlorine residual samples during each required sampling period and submit the results to the EPA within 10 days following the end of each quarter.

Please send the PN and sampling results to our office using one of the methods listed below. Include your PWS name and PWS ID # on all correspondence.

Email: R8DWU@epa.gov

Fax: 1-877-876-9101

Mail: Refer to the address at the top of this letter. Please use Mail Code 8WD-SDR on the envelope.

You should be aware that repeated violations of the NPDWR may result in formal enforcement action taken against your water system. If formal enforcement action were to be necessary, the Safe Drinking Water Act provides for civil penalties of up to \$69,733 per day of violation. We prefer to address problems before such formal enforcement is necessary, and we ask your cooperation to resolve problems quickly and effectively.

If you have any questions, please contact Jake Crosby at 303-312-6989 or by e-mail at crosby.jake@epa.gov.

Sincerely,

**SETH
TOURNEY**

PUBLIC NOTICE

Date of Release: _____ PWS Number: _____

FAILURE TO MONITOR VIOLATION CHLORINE RESIDUAL

To All _____ Water Users
(Name of water system/business)

We are required to monitor your drinking water for chlorine residual on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During _____ we did not complete all monitoring for chlorine residual and (compliance period) therefore cannot be sure of the quality of our drinking water during that time.

What happened? What is being done?

If you have any questions, please contact _____ at _____.
(Water system contact person) (Phone)

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

Optional: If applicable, you may also include the statement that "Subsequent water samples have been analyzed as safe."

SAMPLE: Suggested public notice language for FAILURE TO MONITOR CHLORINE RESIDUAL.
You may use the above notice sample or write your own but the text in italics must be included in any notification.

PWS Operator/Responsible Party:

Since most monitoring violations require a Tier 3 public notice, you must provide public notice to persons served within one year after you learn of the violation. Multiple monitoring violations can be serious, and your primacy agency may have more stringent requirements. Check with your primacy agency to make sure you meet its requirements.

Community Systems must use one of the following methods:

- hand or direct delivery
- mail, as a separate notice or included with the bill

Non-Community Systems must use one of the following methods:

- posting in conspicuous locations
- hand delivery
- mail

In addition, both community and non-community systems must use another method reasonably calculated to reach others if they would not be reached by the first method. Such methods could include newspapers, e-mail, or delivery to community organizations. If you post the notice, it must remain posted until the violation is resolved but in no case less than seven (7) days, even if the violation is resolved. If the violation has been resolved, you must post the notice for at least one week. If you mail, post, or hand deliver, print your notice on letterhead, if available.

The notice on the reverse is appropriate for distribution after each violation or collectively at the end of the calendar year. If you choose to wait until the end of the year to give notice, the enclosed form can be issued alone, or it can be inserted into your CCR as long as public notification requirements are met.

After issuing the notice, make sure to send EPA Region 8 a copy of each type of notice and a certification that you have met all the public notice requirements within ten days after issuing the notice.

Send the copy of your notice and dates posted to Attn: DBP Manager:

Email: R8DWU@epa.gov

Fax: 1(877) 876-9101

Mail: Refer to the address at the top of this letter. Use Mail Code 8WD-SDR on the envelope

If you have questions about your distribution system chlorine residual FTM violation, please contact Seth Tourney at 303-312-6579 or by email at tourney.seth@epa.gov.
