SPECIAL PROTECTION:

HANDLING YOUR INSURANCE NEEDS

As a professional automotive parts distributor, you know it takes skill, knowledge, experience and superior business protection to operate successfully in the long run.

To help you continue to grow and operate profitably, NAPA offers special insurance protection — programs designed to meet and cover the special needs of the parts store owner/manager.

As an independent business person, chances are you just don't have the time to shop around for the best insurance package available to you. But adequate insurance coverage is vitally important — perhaps moreso today than ever before. This is why NAPA offers this special insurance service; the "shop around and compare" stage has already been handled for you. Insurance professionals have put together the very best plans based around your specific occupational requirements. This leaves you more time to concentrate on running your business more profitably on a day-to-day basis.

In addition, as these insurance programs have been designed for and offered throughout the entire NAPA system, they enable you as an individual to take advantage of the collective buying power, protection and service benefits available to a large group.

Here's more about NAPA's insurance programs; remember, they're available only to help you operate your business more profitably over the years ahead . . .
