Dear Sir or Madam:

Public Announcement of the Availability
of the Draft Report on Vinyl Chloride
to the Scientific Review Panel

I am writing to notify you of the opportunity to review and comment on the draft report on vinyl chloride before it is sent to the Scientific Review Panel (SRP). The report is being prepared subsequent to the California Health and Safety Code (Section 39650 et seq.) and may serve as the basis for regulatory action, specifically, the identification of vinyl chloride as a toxic air contaminant.

The report is composed of Part A which discusses the uses, emissions and exposure to ambient concentrations of vinyl chloride in California, Part B which discusses the effects of vinyl chloride on health and the risk from exposure to atmospheric concentrations of vinyl chloride, Part C which consists of public comments we received regarding the preliminary draft report and an Executive Summary.

We expect to have the draft report available in six to eight weeks. If you are interested in receiving this draft document, or if you would like to be advised when the final edition becomes available, please complete and return the enclosed form within 10 days. If you do not respond, your name will be dropped from the vinyl chloride mailing list. There will be a 15-day review period following the release of the draft report. To maximize review time, we suggest that you provide the most direct mailing address for the person identified to review the report.

CMA 010237

November 9, 1989

If you have any questions regarding the draft vinyl chloride report, please contact Barbara Cook of my staff at (916) 327-5625.

Sincerely,

Joan E. Denton, Ph.D.
