

A house worth calling
'HOME'
is worth protecting with
Dutch Boy

The well-loved home deserves the best you can give it, even in paint. "Cheap" paint, false in promise and poor in performance, just isn't appropriate for a house worth calling "Home". Dutch Boy, on the other hand, provides all the beauty and protection that your home deserves.

Dutch Boy does not crack and scale. It resists the weather . . . wears down stubbornly by gradual chalking which leaves a smooth, perfect surface for new paint. No expense for burning and scraping at repaint time.

If your home needs painting, entrust the job to a Dutch Boy painter. He

studies your house, mixes Dutch Boy to meet the requirements of your particular job and tints it to the color you specify. No one knows paint like a painter.
