Subject: Prospective Vinyl Chloride Monomer Study

Dear Dr. Harris:

Thank you very much for letting me know of your plan to be in Europe in mid-October, and your offer to be instrumental in bringing back information about the European study if clearance to do so becomes available in time.

I hope we will be able to make such arrangement. Presumably your office in Middlebury will have your detailed itinerary in case we should not know sufficiently in advance to let you know before you leave the United States.

Cordially yours,

*George E. Best*
