Mr. Clarence R. Wuellner
Staff Engineer - Drum Brakes
Delco Moraine Division
General Motors Corporation
1420 Wisconsin, Blvd.
Dayton, Ohio 45401

Dear Mr. Wuellner:

I am sending you today a can of AERODAG G which is a graphitic spray used as a mold lubricant. I would suggest you try as a spray in your drums during installation to see if this might be a quick fix for the Cadillac effectiveness problem.

I am exploring other areas of this combination lining to resolve the problem without changing the basic composition.

Yours truly,

V.J. Garthwaite
Mgr. Product Chemistry
