UPPER MIDDLE CLASS

There Are Some Things You Should Know

Every person employed in Abex plants where asbestos fiber is used should know that breathing excessive amounts of asbestos causes certain health problems.

Abex has taken many steps to protect you from exposure to harmful amounts of asbestos fiber. To make these steps effective, you must follow safe working rules on the job.

The health problems So we can be sure

Dear Sir: This Form must be filled out and
Hand In the Form. But Keep This Booklet and Return It Often.

Have you read the whole
booklet? ☐ Yes ☐ No

Do you understand the health
risks connected with asbestos? ☐ Yes ☐ No

Do you understand that smoking
cigarettes increases the health
risks connected with asbestos? ☐ Yes ☐ No

Do you understand that you will
have to follow certain work
rules set by the company to
protect you? ☐ Yes ☐ No

Do you have any questions about
what you have read in this
booklet? ☐ Yes ☐ No

Please sign your name and put today's date below.

Signed _____ Date _____

The health problems that have been connected with exposure to asbestos are these:

- Breathing excessive amounts of asbestos fiber in the air might result in a disease called **asbestosis** - a scarring of the lung tissue - which, when severe, makes it difficult to breathe properly.
- Persons who smoke cigarettes and inhale excessive amounts of asbestos dust are at a greater risk of developing **lung cancer**. Asbestos alone does not appear to cause this disease, but it can make people who smoke cigarettes more likely to develop this cancer. Studies show that if you don't smoke cigarettes, asbestos exposure does not increase your risk of getting lung cancer.
- Persons exposed to excessive amounts of asbestos have a greater risk of developing **mesothelioma**, which is a rare cancer of the lining of the chest or abdomen. There also is some indication from unconfirmed studies that there might be a greater incidence of **cancer of the digestive tract** in persons exposed to excessive amounts of asbestos.

required to do certain things on the job to help us protect you. These are:

1. You must do everything you can to prevent getting asbestos fiber into the air that could be inhaled.

2. You must follow all rules about how to perform your job followed at all times.

3. In areas you may at times be required to use a respirator temporarily or other special protective equipment. You must use this equipment properly whenever necessary.

4. You **will** be requested not to smoke on the job if you might be exposed to asbestos. You will be urged, for your health's sake, to quit smoking completely.

5. You **will** be encouraged to use facilities provided to change work clothes and wash before going home.

6. If equipment is not working correctly, you **must** report it to your supervisor immediately.

So we can be sure

So we can be sure you have read this booklet and the potential risks connected with your job and the rules you must follow, we would like you to fill out the bottom of this sheet and return it to us. This sheet must be given to your foreman as soon as possible.
