Ryan,

Let's try again with Wayne Nastri of South Coast Air Quality Management District. Brief meeting with the Administrator.

Here are possible date windows that would work: Nov. 13-17, Nov. 27-30, Dec. 4-7. Will work with you to make it an easy positive meeting. Appreciate if we can put something on the calendar.

Thanks,

Gary

Any chance to squeeze Wayne Natri in today for quick meeting? We're flexible anytime.
Just let me know.

Thanks,

Gary

Mandy is the best person and maybe daubs Harlow can now be read into this.

However, I think if they can submit their application it will help us to refine that further to get it permitted.

Ryan Jackson
Chief of Staff

Hey man – circling back on the Kirby issue from a few weeks ago. I think by now you have probably heard from Culberson and Flores folks on the House side and Cornyn’s staff on the Senate looking into this a little more. Unfortunately there is a bit of a time crunch to have this resolved by the end of the month in order for Kirby to build and deliver units by the end of the year. The final application is prepared and will be ready to file with EPA. That being said, before Kirby sends the application to EPA I wanted to get some feedback and direction from you to help us figure out who to discuss with on your team and determine how best to proceed before entering into that formal process.

Appreciate any guidance you can provide to steer us toward the right discussion. – Sarley
