DOCUMENT DESCRIPTION: Memo from Donald Tulloch, Jr. to All Licensees RE
Flexible Range Boiler Jackets

DONALD TULLOCH, JR.
16th Floor, Inquirer Building
Philadelphia, Penna.

RECEIVED
FEB 27 1957
P. 504

TO LICENSEES:

Schedule VI
General - Flexible Range Boiler Jackets.

Comments made on proof of the above Schedule were sent you February 4 and February 24. While there has been some difference of opinion relative to suggested changes, the general view seems to favor the following changes in the original proof.

1. Eliminate extra charges for finishing. This will permit licensees to furnish any finish they desire, making extra charges for any special finishing, if they so wish.

2. Prices as listed to include the following accessories:

4 lbs. Asbestos Cement.

5 Black Japanned Bands - any size or width as maximum.

10 Aluminum staples, per jacket.

3. Under heading "Extra Charges", page 5:
Bands (More than 5 per jacket) a charge of 10¢ each (any size) shall be made.

An additional charge of 1-1/2¢ per pound to be made for Cement over and above 4 pounds.

Eliminate charges for painted and aluminum finish for jackets and for air seal discs.

Eliminate \$1.25 charge for mandril, as shown in paragraph 2.

Make a charge of \$1.25 for irregular size mandril.

4. Allow 10% discount on orders for 10 or more jackets of any size.

If licensees approve the above, we are presenting same to make effective Schedule VI - so your prices become the right.
