Dear Ray:

(Should Hypochlorite) correct.

What the H___ is Calcium Hypochloride mentioned on the last line of page 16 of your bulletin, 'The Aroclor Compounds".

You people did an excellent job on this bulletin. It is so pregnant with thoughts and ideas that I could honestly put our entire research staff to work in following through on these ideas, and we would still be shorthanded. Unfortunately, we are shorthanded.

Best personal regards.

Very truly yours,

P.S. Incidentally, we never received the sample of Santolene C.
