Re: WR-3505, Chemical Content, Composition Brake Shoes
Letter from Mr. I. G. Hendry to Mr. R. J. Cook.
January 11, 1978

Dear Joe:

The subject correspondence requests information pertinent to our possible past or current use of poly chlorinated biphenyls (PCB's) in the formulation of our COBRA brake shoes.

Confirming my phone call to you on February 15, 1978, we have not previously utilized and we do not currently utilize PCB's in the formulation of our composition brake shoes.

Please let us know if we can be of any further assistance.

Sincerely,

H. J. Reynolds
