FROM: BOND, GREGORY G., 2020, 636-9063
SUBJECT: Minutes of March 16 Meeting
Just a quick summary of our meeting earlier today to discuss updating the inter-industry study of VCM/PVC industry workers. We agreed to the following:

1. Dow supports an update to the original study and will sign a commitment form to CMA pledging financial support (estimated at ~50M spread over 1994/1995). Jonathon Ramlow of Dow will succeed G. Bond as chairman of the CMA Vinyl Chloride Research Coordinators group. He will communicate progress to the group above on a periodic basis.

2. Dow will participate, but not chair a task group that will consider additional toxicology/human health research on VCM/PVC. Jean Domoradzki, Bill Hayes and Jonathon Ramlow will coordinate Dow's participation with Jean likely taking the lead. Decisions on supporting any additional research will need to be put before the larger group.

If you have any questions about this please feel free to contact me. -- Greg
