TO : Mr. W. W. Klemme
Anniston

1254

Thanks for your June 5 note which has been discussed with Walt Gresham.

He will get underway incorporation of 1.0 max. HST chlorides as a special customer requirement for Aerovox.

When the new specification has been established, Aerovox will be glad to hear from us.

This is another example of the splendid effort being made by you folks at Anniston to satisfy our customers.

Paul
P. G. Benignus
