Subject: John Barr's Trade Association Activities

Dept.: Corporate Safety
Dept./Ext.: Corporate Environmental/8339

cc: P. L. T. Brian

Jim:

This is in reply to your request concerning John Barr's outside participation in trade organizations.

- Vinyl Chloride Safety Association
- Vinyl Institute.
Chairman, Safety Subcommittee
- American Industrial Health Council (AIHC)
EPA Task Force
Science Committee
Quantitative Risk Assessment Subcommittee
- Society of Plastics Industry (SPI)
Health and Safety Committee
Quantitative Risk Assessment Subcommittee
- Local Chamber of Commerce
Environmental Committee

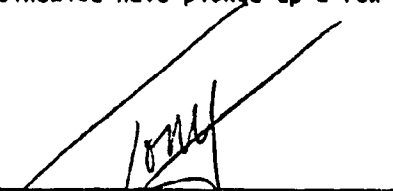

The Vinyl Chloride Safety Association, the Vinyl Institute and SPI trade associations predominately service the Chemicals Group PVC business. I notified Fred Fisher, Chemical Group PVC Business Center Manager of John's departure and suggested Chemical Group candidates for these assignments. The suggested candidates are:

1. Walt Silowka - CG Process Technology - Sr. Manager
2. John Anderson - Escambia PVC Superintendent

Fred Fisher may chose not to have any representation.

Bronek Drozdowicz and Chemical Group's Paul Usinowicz have picked up a few of John Barr's activities in the AIHC.

Please let me know if you need anything else.

A. J. Diglio
