

9. Warner Electric do Brasil Ltda. was formed in January 1985 and became a subsidiary of Defendant upon Defendant's acquisition of Warner Electric Brake & Clutch Company. It produced ball screws and clutches.
10. Warner Electric Aktiebolag (aka Warner Electric AB) (Sweden) was incorporated in 1965 and became a subsidiary of Defendant upon Defendant's acquisition of Warner Electric Brake & Clutch Company. It operated as a sales office and later as both a sales office and manufacturer upon its merger with Tollo Systems AB as described below.

After Defendant acquired Warner Electric Brake & Clutch Company, Warner Electric Brake and Clutch Company operated first as a subsidiary, and then as a division of Defendant.

Operationally, changes occurred from time to time regarding Warner Electric, the subsidiary, and later the division of Defendant. If any products for United States operations of the Warner Electric Division contained asbestos, they will be reported pursuant to the October 20, 2003 order.

1. In 1985, Warner Electric Brake & Clutch Company was responsible for SECO Operations, manufacturers of electric controls used in automation and robotics. (Acquired by Defendant in 1971 first as a subsidiary, later a division.) SECO also incorporated the business of Holaday Circuits which SECO purchased March 23, 1973.
2. In 1987, the Warner Electric Division was, for a time, responsible for sales and marketing activities for the Industrial Power Transmission Division of Dana.
3. In 1989, the Beaver Precision Products plant in Troy, Michigan, which had been part of Warner Electric, became a separate division of Dana and the Beaver operation was sold in 1991.
4. In January 1989, the Mt. Pleasant, Michigan operation of the Dana Industrial Power Transmission Division was added to the Warner Electric Division. The Mt. Pleasant facility manufactured a variety of couplings and mechanical power transmission components for the industrial market. This operation was sold in March 1993.
5. In 1989, Defendant acquired Superior Electric Company. Superior Electric manufactured stepping motors and Superior Electric was added to the Warner Electric Division. Unitron, a former subsidiary of Superior Electric, produced power supplies and was sold in 1990. Superior Electric's Electro-Kenesis production line was sold in August of 1997.
