Section I – INTRODUCTION

PURPOSE OF THE INSPECTION

EPA Region 6 inspectors Kayla Woods and Jeanne Eckhart arrived at the JnK Energy Corporation/Jennings "D" Lease at 10:32AM on 2/25/2020 for an unannounced inspection. The scope of the inspection was to determine if the facility is in compliance with the CWA, and to identify and document unauthorized discharges of produced wastewater (brine) to a water of the United States.

FACILITY DESCRIPTION

There was a sign indicating that this facility is currently owned by JnK Energy and is the Jennings "D" lease. I observed one oil storage tank, one separator, and one produced water storage tank on site. This facility had two inactive tanks as well.

Section II – OBSERVATIONS

I observed that there were no berm walls or secondary containment on site. I observed vegetation within two feet of tanks. I did not observe any spills or staining near the tank battery.

Section III – AREAS OF CONCERN

There was inadequate secondary containment and vegetation at the facility.

Section IV – FOLLOW UP

EPA Region 6 Water Enforcement will refer this facility to EPA Region 6 SPCC program.

Section V – LIST OF APPENDICES

There are no photos, videos, or other appendices to include to this report.
