S.M.P. PYRANOLS AND INERTEENS

Dr. J. R. Durland

MMK - TOKYO

As an addendum to our Aroclor/Biphenyl arrangement, we include the information on the blends Pyranol 1481, 1488, A 13B3B, Inerteen PPO and Inerteen 54201KA. Attached is copy No. 10 of the Standard Manufacturing Process for Pyranols and Inerteens dated October, 1966, prepared by D. E. Harris, WGK plant. Although this is a 1966 issue, all factors are valid and current.

Please acknowledge receipt of this manual.
