MESOTHELIOMA OF THE PLEURA

We have on record that [redacted] a 50 year old employee of your plant expired sometime in 1963 from mesothelioma of the pleura.

Please do a careful investigation and let me know if this individual was ever exposed to asbestos in our employ, how long he was, in what type of work, or any other information that may be available. If at all possible, try to ascertain whether there is any information that this individual worked as a roofer, pipe coverer or any other type of asbestos exposure prior to joining Du Pont. This inquiry is for our own edification only, as no one outside of the Company has raised the question.

We are hopeful you will keep this information most confidential, and let me have your reply as early as possible.

Thank you for your cooperation.
