

1 A Well, an order of magnitude lower from .1 to
2 .01 is certainly consistent with the others on this
3 paper, but you are correct, yes.

4 Q In addition, Mr. Sheehy also included many
5 short fibers may induce a tumor as easily as a few
6 long fibers.

7 Doesn't he have that under fiber size and
8 potential health effects?

9 A Well, he has no basis to put it there, but
10 he does state that, yes.

11 Q Now, sir, on a number of places you refer to
12 Dennis Roberts, and I believe you have cited him on
13 one, two, three, four, five --

14 A This is one.

15 Q One study.

16 A Two, three.

17 Q So you would consider Mr. Roberts to have
18 contributed three studies, one of which would include
19 three different places; is that right?

20 A Let's understand, these are NIOSH studies.
21 He happened to be the technical person who prepared
