JUN 6

Notes on 1300th Meeting
BOARD OF OPERATORS
May 29, 1944

Item 13171 - RAW MATERIALS
Turpentine - Mr. Hennig to follow for additional supplies of Crude. Messrs. Lemperly and Rinkoski to arrange for sales and distribution of increased quantity we can obtain.

*****

Item 13172 - INVENTORIES
Mr. Rinkoski to see that warehouses work down their inventories on Trade Sales materials. Both Trade Sales and Industrial stocks to be checked for slow-moving items.

*****

Item 13173 - COAL
Kensington Plant to start building up a nine-day stock.

*****

Item 13174 - STEEL PACKAGES
Mr. Hennig to get consumption figures together so that probable quotas can be estimated and filling schedules ascertained.

*****

Item 13175 - CHEMICAL PRODUCTS PLANT
Dr. Van Stone to check the entire Beta situation with particular reference to future operations, meeting both war and post-war requirements.

*****

Item 13176 - BALTIMORE WAREHOUSE
Mr. Lemperly to arrange with Mr. Thomson to check space available at Washington to make certain it is satisfactory to take care of the Dyer account.

*****

Item 13179 - KEM-TONE PRODUCTS
Kem-Tone - Mr. Rinkoski to arrange for faster movement of the stock that is available.

*****

Item 13181 - LONG SERVICE WATCHES
Consideration being given to other sources as up to this time Hamilton has stated that they are unable to take care of us.
