DO YOU HAVE THIS HELPER?

JENKINS VALVES
CATALOG 56

HELPFUL FEATURES

FOUR TYPES OF INDEXES LEAD QUICKLY TO DATA NEEDED
Four-way indexing—General, Alphabetical, Fig. No., and Sectional—leads the reader instantly to the information desired, from any point of reference... pattern, metal, number, or function.

VALVE SPECIFICATIONS LIST ADVANTAGES AND MAJOR USES
Every Jenkins Valve in every group—Bronze, Iron, Cast Steel, and Stainless Steel—is fully illustrated and described in detail, with an explanation of its principal advantages and uses.

HELPFUL INSTRUCTIONS FOR CHOOSING AND USING VALVES
Thirteen pages of basic information—"Fundamentals of Valve Design and Application"—serve as a guide in selecting the correct type of valve, and provide instructions for their proper installation and maintenance to assure maximum service life.

USEFUL REFERENCE DATA
In the 23 pages of the "Engineering Data" section, Catalog No. 56 provides a compilation of useful required tables, charts, and codes—the information wanted by the men who plan piping layouts... and specify valves.

For clear, complete, easy-to-find data on valves and how to select and use them, reach for this latest Jenkins Catalog.

From cover to cover this 296 page general catalog of Jenkins Valves was designed to give specifiers and buyers all the data they want... and FAST. It's the book to reach for FIRST when you need valves or valve information. Write for your copy.

Johnston Brothers, Inc.

Pioneers of waterback boiler design

Ferrysburg, Michigan

Johnston pioneered the waterback, three pass design for packaged boilers. With the submerged rear combustion chamber, rear end refractory and tile baffles are eliminated. The water cooled surfaces prevent overheating of the rear tube sheet and cracking of ligaments between tubes.

509 SERIES ABMA RATED

12 Sizes—75 through 750 h.p. Pressures, 15 lb. to 250 lb. Quiet gas burners, low pressure air atomizing or horizontal rotary oil burner, or combination gas-oil. Three pass boiler design.

Ask for Bulletin 509B.

4200 SERIES ABMA RATED

14 Sizes—20 through 250 h.p. Pressures, 15 lb. to 250 lb. Quiet gas burners, low pressure air atomizing oil burners, or combination gas-oil. Available in three or four pass boiler design.

Ask for Bulletin 200B.

9600 SERIES ABMA RATED

19 Sizes—43 through 717 h.p. Pressures, 15 lb. steam, 30 lb. water. Quiet gas burners, horizontal rotary oil burners, or combination gas-oil. Two pass boiler design.

Ask for Bulletin 9600.

STEEL HEATING BOILERS

Low pressure—For oil, gas or stoker firing. Built to the ASME Code and rated in accordance with the S.B.I. Rating Code—S.B.I. gross outputs from 648 MBh to 18,000 MBh.

Firebox Boilers

Ask for Bulletin 1500A

Scotch Type Boilers

Ask for Bulletin 9500
