FEET KILLING YOU?

Find Quick Relief in what many nurses and doctors now do. After being on their feet all day—on hard floors—they've discovered how to get comfortable in a jiffy.

Takes 5 Minutes: When your feet are tired and aching—no hot and perspiring—pour a little Hexol in a pan of warm water. Put your feet in—move them about—wiggle your toes. Relax as pleasant feeling, fragrant-smelling Hexol works in—soothing and healing. You'll be delighted at how good your feet will

Make Your Own Garden Shelf

By STEVE ELLINGSON

Flowers are nature's great advertising medium. The beautiful colors, the geometrical forms and the delicate perfumes are for the purpose of attracting attention. They glorify the earth and everything that's on it. What a desolate place the world would be without flowers.

Just as jewels enhance the beauty of a lovely lady, so do flowers enhance the beauty of a home. After all, flowers are nature's jewels.

No matter where we live we can always be a window box gardener. It takes very little time and it's lots of fun. A flash of friendly color just outside the window, with fresh fragrance drifting in with the summer breeze, these are the rewards of the window box gardener.

A window garden is never monotonous. Plants may be

changed to suit the seasons and almost any variety of colors

Building a shelf to hold flower pots, or even a window box in which the flowers are planted is easy. The shelf pictured here with NBC's television actress Elena da Vinci was built from our full size pattern.

This pattern shows how to build the shelf pictured here and it also shows how to build a regular window box. If you prefer the window box, then of course you need not use ours since the flowers are planted in the box itself.

To build the shelf or the window box all that's necessary is to trace the full size pattern on wood, then saw out the parts and finally put them together.

The pattern lists the required materials along with easy to understand directions. Instructions are also given for mounting the window. Simple hand tools are all you need.

To obtain the full size window shelf or box pattern No. 160 send 50c in coin to Steve Ellingson, The San Jose Mercury-News, San Jose, Calif.

Insulation Cuts Cost Of Air Conditioning

An air-conditioned home needs thick insulation in its ceiling, walls, and floor to make air conditioning practical, economical, and completely comfortable, according to one of the nation's leading researchers in

blankets of mineral wool themselves in accessible ceiling and wall areas. Walls, ceilings and floors that cannot be reached by

the home owner can be filled with mineral wool by professional installers who blow the insulation in by air pressure.
