

1 Were these tests conducted for litigation?

2 A Heavens, no.

3 Q What was the purpose?

4 A The purpose was to assure the administration
5 of the University of Texas that the work that we were
6 conducting there, we had a fleet of about 100 vehicles
7 within our operation, police vehicles and vehicles to
8 haul people and material around the campus, so there
9 were about 100 vehicles and we had a slew of service
10 personnel that might be called garage mechanics, and
11 we wanted to assure ourselves that we were not
12 permitting harmful exposures to those workers during
13 the course of their activities.

14 Q Okay. So you were looking at your garage
15 mechanics?

16 A Basically. That is correct.

17 Q Okay. How did you go about determining what
18 activities you were going to measure and how you were
19 going to measure them?

20 A Well, in the manner that a scientist would
21 approach it, you first approach the literature to see
