

NEW !!!!!**GEORGIA-PACIFIC**

PANEL ADHESIVE

In a Cartridge Pack!

Perfect for contractors, home builders, and the "do-it-yourself" market.

- Faster and more economical than nailing or any other method. Saves you time and money.
- No bracing necessary, grabs fast, holds tight.
- Fastens a greater area than nailing.
- Eliminates nail holes, nail popping, visible nails and hammer dents.
- Eliminates costly finishing operations: counter-sinking, wood fillers, color matching etc.
- Reduces out of line stud problems.
- Permits ample time for positioning without bracing.
- No waste . . . no mess. Use what you need, remaining adhesive stays self-sealed in tube. No messy gun to clean.
- Minimizes the danger of warping and deadens sound.
- Clean . . . no messy spreaders, no mess on floor, applies with a squeeze of the trigger.
- One surface application.
- No waiting time.

For easy, clean, economical installation of:

- Gypsum Board
- Wall Board
- Plywood
- Insulation Board
- Pre-finished panels

Adheres to all surfaces: wood, plaster, cement block, metal, glass, concrete, plastic and textiles.

Fits any standard caulking gun.
