

LEAD INDUSTRIES ASSOCIATION

480 LEDNISTON AVENUE

NEW YORK 17, N. Y.

Pigments and Chemicals Division

July 3, 1956

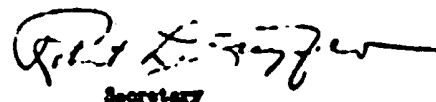

SUBJECT: NEXT MEETING

To Members of the Red Lead Technical Committee:

At the last meeting of the Red Lead Technical Committee, the date of Thursday, July 12, 1956, was set as tentative for the next meeting of the committee. However, it now appears that the committee cannot be adequately represented at a meeting on that date and the meeting is therefore postponed.

We will be in touch with you shortly as to a mutually agreeable meeting date somewhat later on during the summer. Meanwhile, it would be helpful if you could indicate to us approximately what weeks during the summer you would be able to attend a meeting in this office.

Very truly yours,

Secretary
