Ms. Marilyn Vantosh
Hazardous Waste Division
Office of Environmental Programs
STATE OF MARYLAND
201 West Preston Street
Baltimore, Maryland 21201

Dear Ms. Vantosh:

I am pleased to accept your invitation to participate in the Waste Management Administration seminar on PCB regulations on March 16, in Baltimore.

I will plan about a 20-minute presentation on the history and toxicology of PCB's, allowing another 10 minutes for questions.

Attached is a brief biographical sheet that may be of use to you.

Sincerely,

John H. Craddock, Product and Environmental Safety Director

PS: I have located a videotape copy of the "Nightline" program of October 6, 1982, on PCB's that you may borrow. The program was 30 minutes. JHC
