

Heavy getting some high reaching
but better than before are covering

24540001

York.

52 - can cover fully work in
windward and get concentration like
sight in May 15 - there can open
harmless - equipment order will be same

BFG32106

in covering
is to be notified weekly and
do what he can to correct - throwing
reported to the person who will
consequently allow 60 ppm as to be
O/A Monitoring any area reporting
a week covering all 3 shifts equally
1-7 at least 5 man hour weekly 7 days
no so we found by week from
operation of Co - to know that

II

Can limit VCL 5 lbs Com.
On change in Unit A, Heavy Production
Poly Ridge 6 per hour normal 12 P.H.
max 20 per hour emergency
Long Road 15 normal 30 emergency
at present, will set a 50' per min.
Green Poly Ridge and materials to
that Department - problems in
operating station of equipment.

1-7-74

Some conditions -

long Beach & Pedrick from A.C.

III del of Bendix

10 on order with multi point recorder - 1 for each Poly. Bldg.

15th approx 4 weeks

after that each week after
