SUBJECT: FORMULA NUMBERS USING  
LEAD-CONTAINING RAW MATERIALS

FOR: Mr. Wm. Tomc,  
D.P.J.

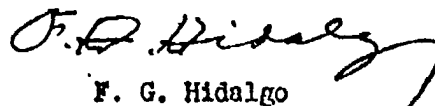

You are aware of the current and proposed restrictions on the presence of lead in various types of coatings.

The attached tabulation shows all presently active raw materials that contain more than trace amounts of lead. Together with each raw material, we are showing those active formula numbers which contain that raw material.

The list of lead-containing raw materials is complete to the best of our knowledge. The formula numbers shown represent a great majority of the active formulas that contain those raw materials, but you should check your own records for additional formulas that use the lead-containing raw materials.

The attached listing is being sent at this time for your information only, so that you may be able to proceed more rapidly if and when you are required to eliminate lead from any of those products.

Definite instructions as to the removal of lead-containing raw materials from certain formulas will be given by appropriate C&R management personnel.
