

1 You also teach at the University of
2 California, San Francisco?

3 A Yes, sir.

4 Q Is it the same types of courses and things
5 that you teach there?

6 A In general, although this is appropriate in
7 occupational medicine and we have a residency program
8 there where physicians who are already in practice,
9 but want to specialize in occupational medicine come
10 in for a specialized training, and I teach courses and
11 give lectures essentially there on various topics,
12 including asbestos sampling and analysis, general dust
13 sampling and analysis, processes for evaluating
14 exposures retrospectively.

15 How to look back in time with the absence
16 of measurements and determine what someone's exposure
17 to various substances might have been.

18 Q So in your teaching at University of
19 California, San Francisco, many of your students are
20 either medical students or physicians?

21 A Yes, all of them.
