

INTER-OFFICE MEMO **TENNECO CHEMICALS, INC.**

TO H.B. Carr AT Burlington DATE October 17, 1973
FROM F.W. Kanzler AT Burlington COPY TO ☒ File
SUBJECT Use of MEK and MIBK

This is to confirm our telephone conversation from 10/15/73 in which we discussed the use of MEK and MIBK in the Burlington Resin Plant. None of the reagents is presently used. MEK was used by Maintenance until about two years ago for cleaning ARDO screens, while the MIBK had been used in the Quality Control Laboratory for viscosity determinations, which were discontinued about five years ago. A supply of unused MIBK is still on hand at the Quality Control storage facility.
