

Edward V. John - St. Louis

May 22, 1969

Mr. W. Ken Menke

I am sending you a copy of the Monsanto position statement prepared in March as the result of a San Francisco area news story. You may want to use this material to inform the biologist at McGraw-Hill of Monsanto's research efforts and cooperation with governmental agencies in the proper use and handling of polychlorinated biphenyls.

E. V. John
