Yes – 8:30a or 9 – or whatever works for you.

Let me know which number is best.

Thank you,

Beau

Beau, I have a meeting at 5:30pm now – would it work for us to talk in the morning?

Would 5:30p work for you today?

Which number would be best?

Sure Beau, my schedule is a little crazy today but how about after 4:30pm today?

Hi Samantha. It was a pleasure finally meeting you late last week when members of the Southern Crop Production Association Board of Directors were in Washington. Administrator Pruitt has been so generous with his time. We certainly appreciate his willingness to listen and work with us on a host of issues. I thought we covered good ground on Thursday with multiple points that we would like to continue the conversation with you. Perhaps most immediately, we will see one another at the Senate Agriculture Committee on Thursday.

Are you available to talk today?

Beau.

Beau Greenwood
