Subject: Fw: Shanghai BHRC-TC

Now that the contract issues have been settled I wondered if we could get back to our previous modus operandi for the BHRC Technical Committee to have occasional but regular calls with the Pls for review and update. For instance Stuart & I had each taken the lead previously on calls with Otto & Richard respectively, with other TC members participating in these as schedules permitted. With the interdependency of the DP and CC studies in terms of data transfer it may make more sense now to have combined calls with Otto & Richard - again for purposes of update, identifying any potential hurdles and to facilitate exchange. Jennifer & Stuart if you are on board this, I would very much like to see this reimplemented.

I don't have a problem with this starting to happen again. I think the question from the Pls will be, what is it you want us to talk about, so we just need to be prepared to answer that question.

Have a good weekend everyone.

Thanks,
Jennifer Galvin
