Dear Dr. Machle:

We have been severely criticised by Mr. A. E. Esser, Superintendent of the Socony Vacuum refinery at Brooklyn for our failure to cooperate with him.

In April, we sent in a sample of sludge and a sample of tank scale from their tank No. 73 at Brooklyn, New York. We asked you on April 23rd if we could have an analysis of this as we were endeavoring to improve our relations with this company and thought this favor might help us. It is possible we have overlooked your reply but at the same time we have not been able to accomplish the good we hoped to do with this company.

If we could have this information again, we would appreciate it.

Very truly yours,

W:GOL
