BY MS. TOSTANOSKI:

Q On a commercial jobsite from your observation, what was the split-up of the asbestos dust created?

A 50-50.

Q Between whom?

A The plasterers and the pipecoverers, I guess, and probably bricklayers was -- I don't recall them using any asbestos on commercial sites.

MS. TOSTANOSKI: That is it. Thank you, Your Honor.

THE COURT: You are welcome.

Next, please.

MR. SHELLENBERGER: Our next witness, Your Honor, is Mr. Grewe's videotape. It takes 41 minutes.

THE COURT: We won't stay for the completion. We will start it and resume it tomorrow morning.

MR. IGNATOWSKI: Your Honor, we have some Owens-Corning documents that we will finish.
