CC: H. A. Brown
K. R. Cranker
R. J. Bragg
W. R. Payment/Travelers Rest ZONE

This is to confirm my phone conversation of yesterday. It is my understanding that Bragg, and Payment (and possibly Rothfelder) will be in Cambridge July 27th to 29th for the purpose of working on various aspects of the Mono-Kote development problem. As a result of my meeting with Chapin this week, reviewing my report on Mono-Kote manufacturing quality control, I have formulated some specific proposals on a quality control program and specifics of test methods for Mono-Kote raw materials. Since Bragg and Payment and Rothfelder are the most knowledgeable people in the Division, I would like to have you block out two or three hours in their schedules to meet with me and assist me in finalizing quality control proposals.
