

March 22, 1945

Major Allen D. Brandt, Sc.D.,
Sanitary Engineer, USPHS,
Office of the Chief of Ordnance,
Safety and Security Division,
Chicago 1, Illinois.

Dear Major Brandt:

Thanks for your letter of March 3. I assume from what you have said that the other members of our Committee are in essential agreement with us on the proper procedure in connection with papers submitted for our program. For this reason I am sending each of the members a copy of this letter to you. I would appreciate it very much if you and Warren Cook write to the various persons, offering our assistance in presenting their papers to the attention of the two Journals, but giving each of them the opportunity to withdraw his paper and to deal with it as he thinks best.

Inasmuch as Warren Cook is the chairman of the Editorial Committee I believe that material available for publication through our hands should be forwarded to him.

Very truly yours,

Robert A. Kehoe, M. D.
