Dear Doctor Johnson:

I enjoyed meeting you and learning more about your important work and your Division. I wish that I had asked you and your staff to present a conference for our medical staff while you were here but perhaps this can be done at a future time.

I have just received a letter from Dr. Lee Grant. He has expressed a desire to come to review the x-rays of the Pittsburgh Corning employees. He has also expressed some concern about them being sent to you before he has had an opportunity to review them.

Sincerely,

A handwritten signature in cursive script that reads "George A. Hurst".
