Byron,

Good morning. Thanks for your reply.

Wednesday at 1:00 would be perfect for me. I'd be pleased to stop by and meet in person, if that will work for you and Nancy.

Please let me know what would be most convenient.

Best,

Keith

Thanks, Keith. After last week's meeting, I spoke with Nancy Beck, who is the new Deputy Assistant Administrator for OCSPP. It would be best to include Nancy in a follow up meeting. Would Wednesday afternoon (maybe either 12 noon or 1 pm) work?

Byron,

While it was unfortunate that the Administrator was unable to meet with RJ and General Bostick, I'm glad that they had the chance to speak with you. I told them that you've had long experience both at and with EPA, and know the Agency as well as anyone.

I'd appreciate the opportunity to speak with you regarding the OX513A mosquito and how it's being handled at OPP. There are some unfortunate policy positions that are being contemplated that are unnecessary based on the demonstrated safety and efficacy of this product. These positions are not compelled by the regulations, are contrary to the intent of FIFRA, and likely will have the effect of significantly delaying approval of this vital tool that will help safeguard public health.

Please let me know when would be a good time to follow up. I can make myself available at your convenience.

Best,

Keith

Dear Byron, thank you for meeting with us last week and devoting some much of your time in listening to our concerns with the ongoing process between FDA and EPA. We understand that Administrator Pruitt is working to reschedule the meeting with RJ Kirk which is wonderful news.

You requested a copy of the FONSI and EA. See the link below.

Please let me know if you need any additional information from us.

I've included Jack Bobo who leads Government Affairs for Intrexon, and Keith Matthews who has assisted us in our work with EPA.

Thank you,
Tom
