January 23, 1962

Mr. Kenyon Loomis
Executive Secretary
Adhesives Manufacturers Association
of America
441 Lexington Avenue
New York 17, New York

Dear Mr. Loomis:

Attached is the type of correspondence we are getting concerning Aroclor 1242 which is, of course, chlorinated biphenyl.

Is there anything new concerning its status with the F.D.A?

Very truly yours,

R. Emmet Kelly, M. D.
Medical Director
