Hi Cole,

I hope you're doing well.

I'm a reporter at NBC News. I write about science for nbcnews.com.

I'm working on stories about policy shifts and personnel changes at EPA as the new administration settles in.

I understand you are a Department of Government Efficiency worker who has been assigned to assist at EPA. Is that true?

I'd be interested to learn more about your role, your work and how you're approaching it. Would you have some time for an interview to discuss?

Thanks for your time,

Evan Bush
