INTERNATIONAL HARVESTER COMPANY
MELROSE PARK PLANT
The Safety Department

July 22, 1976

TO ALL MANAGERS
DEPARTMENT HEADS
SUPERINTENDENTS
GENERAL FOREMEN
PLED MANAGEMENT

In all applications at Melrose Park Plant, including the Engineering sections, asbestos cloth has been replaced by aluminized fiberglass. Therefore asbestos cloth, which was used to shield surfaces during welding, is no longer approved for use. All other safety procedures for handling asbestos, as outlined in my August 4, 1975 letter, still apply.

John Simmons
Safety Supervisor
